DIRECT CREMATION

£1395 including cost of cremation

A direct cremation is a practical and lower-cost option, which separates the cremation process from the funeral ceremony.

A cremation is held without any service or mourners present and the ashes are delivered to the family a few days later.

We believe a direct cremation is one of the most flexible options for families who want to arrange a more personal and bespoke funeral. By separating the funeral ceremony from the cremation process means that you are not limited by the timescales of the crematorium and you are free to arrange a memorial ceremony or celebration of life wherever and however you choose.

Once we have been instructed to carry out a direct cremation, we arrange all the paperwork and keep the family fully informed as we go. We always make sure everyone knows the date and time the cremation will take place so that they can just be still and take a moment to send their thoughts and prayers if they wish.

We follow up with a phone call to let the family know that everything went well and to arrange to return the ashes if required.

The cost of Simple Cremation is £1,395 which includes:

Help completing the necessary paperwork either at Home, the Office or Via Recorded Delivery

Doctors' cremation paperwork fees

Collection of the body

Care of the body prior to the cremation

Simple cardboard coffin

Cremation

Simple urn

Delivery of the ashes to you

Fixed Price with No hidden Extras
